

JAGADEESH ACHUTHAN

Multimedia Designer • 3D & Motion Graphics • AR / Video Content
63000 Cyberjaya, Malaysia | 019-788 1251 | jagadeeshazard@gmail.com

SUMMARY

Multimedia Designer with hands-on experience across 3D modelling & animation (Blender), Augmented Reality content development, motion graphics, and video editing (CapCut, Premiere Pro, After Effects). Recently applied these skills in a marketing role generating AI-assisted video content, posters, and promotional videos for course campaigns. Comfortable moving between creative concepting and technical execution, with a growing foundation in web design and Python. Final-year Bachelor of Science student in Multimedia Technologies, actively seeking an internship/entry-level opportunity to contribute and keep growing.

EXPERIENCE

Multimedia Designer & Digital Marketing Intern

April 2026 – August 2026

Taming Tech Sdn Bhd — Kuala Lumpur

- Designed posters and marketing visuals for course promotions and digital campaigns.
- Generated AI-created videos for marketing and content purposes.
- Shot and edited short promotional videos in CapCut, handling transitions, pacing, and visual storytelling for social media.

IT Technical Support Intern

March 2022 – July 2022

Panasonic — Shah Alam

- Troubleshoot Keyence scanners to enhance functionality in manufacturing and production departments.
- Set up new workstations for users with proper cables, equipment, and software.
- Created barcodes for manufactured goods to improve tracking and inventory management.
- Established internet access for new employees, facilitating seamless onboarding.

Housekeeper

August 2022 – October 2022

DoubleTree by Hilton — Shah Alam

- Maintained a tidy, welcoming environment through meticulous cleaning tasks and hygiene standards.

KEY PROJECTS

Final Year Project (Ongoing) – CGI Short Film: "Knowledge Is Survival" | Blender / CGI | 2025

- Leading story development, 3D modelling, animation, lighting, and rendering for a full CGI short film.

Augmented Reality Storybook – "The Kindness of Little Leo" | AR | 2024

- Created an AR storybook combining visual design with interactive digital elements to enhance storytelling.

3D Animated Game Scene – "Skuit Gim" | Blender | 2023

- Built a 3D animated game-inspired scene, focusing on modelling, texturing, lighting, and animation.

Short Film – "Common Sense" | CapCut | 2023

- Produced and edited a short film — transitions, audio sync, and visual storytelling with a clear narrative structure.

3D Maze Interactive Game | OpenGL | 2024

- Developed an interactive 3D maze game with user navigation, collision handling, and basic game mechanics.

Smart Home IoT Project – Smoke Detector System | IoT | 2024

- Designed a smart smoke detection system integrating sensor-based detection with real-time alerts.

SKILLS

- 3D Modelling, Texturing & Animation (Blender)
- Adobe Photoshop, After Effects
- Video & Audio Editing (CapCut, Premiere Pro)
- Augmented Reality (AR) content development
- Web basics: HTML, CSS, JavaScript, XAMPP
- Python
- Poster & digital content design
- Team collaboration & leadership

EDUCATION

Bachelor of Science, Multimedia Technologies

Universiti Malaysia Sabah International Campus, Labuan | January 2022 – January 2026

- Director of Funding Department, ROTARACT CLUB UMSKAL
